

CARBON

Velo™ DOA Portfolio

Carbon Technologies offers the Velo™ DOA Rapid Test portfolio, a comprehensive suite of diagnostic solutions for the qualitative detection of drugs of abuse. Designed for precision, speed, and adaptability, these tests are available in five practical formats: Cup One-Step, Cup with Lock, Strip, Cassette, and Saliva Midstream, each tailored to meet the specific needs of clinical settings, workplace safety programs, and forensic applications.

DOA Rapid Tests Portfolio

Velo™ DOA Portfolio	Description	Ideal Use
 Cup with Lock (REF:VE242007)	Equipped with a locking mechanism to prevent tampering.	Legal testing, employee screening, forensic analysis.
 Cup One-Step (REF:VE242010)	All-in-one design with a temperature label and clear result window.	Clinical and on-site screening with rapid turnaround.
 Cassette (REF:VE242011)	Simple drop-in format using a pipette.	Controlled lab or clinic environments.
 Strip (REF:VE242002)	Dip-and-read format. Available in various panel combinations.	Controlled lab or clinic environments, affordable, high-volume drug screening.
 Saliva Midstream (REF:VE242014)	Oral fluid-based test using a midstream device.	When urine collection is not feasible.
